Fitoful - PRODUCT LABEL & GUARANTEED ANALYSIS

Fitoful Organomineral Plant Biostimulant | 100% Soluble Powder

PRODUCT IDENTIFICATION

Product Name: Fitoful ()
Formulation: 100% Water-Soluble Organomineral Powder
Active Complex: 75% ARO-C6 Low-Molecular-Weight Fulvic Complex (<1,500 Da)
Organic Carbon: 40% w/w (equivalent to 68% usable organic matter)
Free L-Amino Acids: 19% w/w (17 essential plant-available amino acids)
Registrations: OMRI listed, CDFA

DIRECTIONS FOR USE & APPLICATION RATES

Short-Cycle Crops (Vegetables, Melons, Leafy Greens): 7 lbs / acre per cycle
- Split into 3 to 4 applications of 1.75 - 2.5 lbs/acre during establishment, vegetative growth, flowering, and fruit sizing.

Long-Cycle & High-Value Crops (Strawberries, Berries, Tomatoes, Trees/Vines): 14 lbs / acre
- Apply 1 - 2 lbs/acre every 2 to 3 weeks via drip fertigation or foliar spray.

MIXING & COMPATIBILITY

Dissolves completely in irrigation water without clogging drip emitters or nozzles.
Compatible with standard NPK fertilizers, micronutrients, and crop protection inputs.
Maintain tank pH between 4.0 and 9.0. Perform a jar test prior to complex tank mixes.
